U. S. Land Office at Salt Lake City,
Utah, February 8, 1912.

Notice is hereby given that Charles
Hamre of Utah, who, on Au-
gust 16, 1910, made Homestead Entry
(Serial 32313) No. 1476, for NE 1-4
SE 1-4, section 26, Township 5 N.,
Range 1 W., Salt Lake meridian, has
filed notice of intention to make final
five-year proof, to establish claim to
the land above described, before the
Clerk of the District Court at Ogden,
Utah, on the 18th day of March, 1912.
Claimant names as witnesses R. O.
Bybee and Orin Bybee, all of Utah,
Utah. E. D. R. THOMPSON, Register.

LEGAL

DEPARTMENT OF THE INTERIOR.

U. S. Land Office at Salt Lake City,
Utah, February 8, 1912.

Notice is hereby given that Charles
Hamre of Utah, who, on Au-
gust 16, 1910, made Homestead Entry
(Serial 32313) No. 1476, for NE 1-4
SE 1-4, section 26, Township 5 N.,
Range 1 W., Salt Lake meridian, has
filed notice of intention to make final
five-year proof, to establish claim to
the land above described, before the
Clerk of the District Court at Ogden,
Utah, on the 18th day of March, 1912.
Claimant names as witnesses R. O.
Bybee and Orin Bybee, all of Utah,
Utah. E. D. R. THOMPSON, Register.

NO ONE WANTS OFFICE.

Nevack, N. Y., March 8.—The five
highest elective offices in this town
are vacant, and on one can be found
to accept a nomination. Republican
and Democratic caucuses were held
this week, each nominating for pre-
sident and trustees the same men, all
acceptable to both parties and the
voters generally. The five nominees
absolutely declined to stand as candi-
dates, and the two committees to fill
vacancies are unable to induce any-
body to accept the offices.

The reason is that the previous acts
of the board of trustees resulted un-
satisfactorily to many taxpayers and
brought criticism upon individual
members.

LEAGUE BALL
IN OGDEN
APRIL 23

Ogden's first league ball game will
be played on Tuesday, April 23.

President W. H. Lusk of the Union
association has made out his
schedule, subject to the approval of
the directors, but this approval will
be merely a formality. The season
opens April 23, when teams will play
in Salt Lake, Butte in Missoula and
Great Falls in Ogden.

Cooley of Salt Lake has arranged
with Bert Marrett's team for a series
of practice games early in April.
Cooley received a telegram last
night from W. P. Hogan of Los An-
geles, assuring him that Catcher Kelly
had been duly offered to Missoula and
refused by that club so there is no
doubt about Kelly going to Salt Lake.
Hogan has complied with the rules
of organized baseball and has trans-
ferred Kelly to the Skylanders.

Dyspepsia is America's curse. Bur-
dock Bitter cures dyspepsia
every time. It drives out impurities,
tones the stomach, restores perfect di-
gestion, normal weight, and good
health.

CHANGES ON
RIO GRANDE

W. M. Bacon, superintendent of the
Salt Lake division of the Denver &
Rio Grande, yesterday tendered his
resignation. It was accepted and M.
A. Williams, superintendent of the
Green River division, whose photo-
graph appeared in The Tribune yes-
terday, will be transferred to the
Salt Lake division.

J. T. Slattery, general air-brake
inspector for the Denver & Rio
Grande, has been chosen to be su-
perintendent of the Green River divi-
sion. Mr. Slattery has been connected
with the road as an engineer and in his
present capacity for the past twenty-
three years. He knows the entire
system and is well fitted for the post
to which he has been promoted.

The resignation of Mr. Bacon and
the promotion of the other two men
will be effective March 16, according
to a statement made by J. W. Mul-
hern, superintendent of the company's
lines in Utah.

DELIVERY HORSES
ARE OVERDRIVEN

To the Standard:—I wish to sug-
gest that every person who takes
ride and finds pleasure in having
delivery wagons call at their homes
often as possible go out and examine
the roads and streets and watch the
tired horses pull and struggle through
the mud, under the whip of boy driv-
ers who are anxious to get the rounds
made and deliveries completed at an
early hour as possible. Of course,
people could just as well, nine cases
out of ten, purchase in larger quan-
tity and make two or three deliv-
eries a week answer all needs, in-
stead of thoughtlessly asking the
driver to deliver at their homes.

It is interesting to note from the
United States geological survey's re-
port on copper production for 1910 that
the first ten largest producers today,
although the order is slightly
changed, are the same as in 1909.

The survey's estimate on January
2, 1912, indicates a copper output for
1911 greater than that of 1910 and
nearly equal to the record production
of 1909. It is further stated that most
of the companies are now in a posi-
tion to maintain or even increase
their present output, so that, if the
consumption of the metal will permit,
the production of copper in the United
States for 1912 may be expected to
show a marked increase. It is note-
worthy that not even the leading
copper districts of the United States,
several of which have been active
producers for thirty years or more,
have been worked out or shown a de-
crease in its ability to produce cop-
per.

MORGAN'S ART TREASURES

New York, March 8.—Another con-
signment of J. P. Morgan's art col-
lection, which he is bringing from
abroad, was unloaded today from the
White Star liner Oceanic which docked
here last night. The collection
unloaded today was appraised at \$3,000,000 and included a list of the
acts leading up to and including the
appointment of the justice and

just had never entered a protest of
any kind.

A pretty quarrel is threatened, as
the two commissioners and the attor-
ney announce in very positive terms
that they will not take any other po-
sition than the one assumed, but will
see the matter up to the supreme
court if necessary. The law, they
say, gives them the right to create
any office they may deem necessary,
under that authority, while in Mur-
ray the case seems to have been dif-
ferent in that no new office was cre-
ated by the commissioners.

EUREKA & PALISADE
SOON INTO EUREKA

Latest advice from the construction
gangs on the Eureka & Palisade
railroad indicate that the line will
be completed and ready for operation
not later than May 1. P. B. Wallace,
the engineer in charge of the con-
struction work, has recently been to
Eureka and he informed the Sentinel
that the road would be completed by
April 1. They expect to have the line
completed to within ten miles of Eu-
reka in one week, and the remainder
of the line can be repaired within a
short time. It is said.

With the completion of this line,
the United States Smelting company
will place a large force of men to
work in its Eureka mine, and regular
shipments of from 100 to 150 tons of
iron ore will be made to the local
plant. Several properties in the
camp will be opened up, and it is
said that George Wingfield will ar-
range for constructing a mammoth
reduction plant at the Buckhorn mine.
The Buckhorn mine and mill will give
employment to 300 people.

The Sentinel says that the grading
force will be at work north of the
slough in Diamond Valley next week,
but as it is understood a number of
bridges and open trestle work will
be put in for quite a distance on each
side of the slough, it will take several
weeks to complete the work at this
point.

When the Eureka & Palisade rail-
road was built a number of bridges
and large culverts were put in along
this stretch of road in Diamond Val-
ley to carry off the flood waters that
come through Devil's Gate during the
spring freshets, but as the volume
of water that came through the gate
during recent years was apparently
not sufficient to cause washouts on
the road with less open work, the
timbers rotted out and needed re-
placing. This was actually done until
but a few places were left for the
water to get through the long em-
bankment across Diamond Valley.

When the big flood came two years
ago the few remaining outlets could
not bear the water, and the result
was that the water came bounding down
the valley, and it gradually piled up
against the long grade embankment until
it was forced to give way, and long stretches
of it went out for several miles
across the valley. At the present
time, being especially built to guard
against flood waters, a number of
bridges and trestle work will be put
in all through Diamond Valley.

It is learned that since the railroad
was completed to Ribault, Utah, last
week, unusually good progress
has been made. The road is now re-
ported completed to Alpha station,
forty-five miles from Palisade and
thirty-nine miles from Eureka. It is
said the construction engine delivered
a couple of loads of material at Cedar
Switch, eight miles this side of Alpha,
on Wednesday, and it is now expected
that the road will be completed to
the slough, about ten miles from
Eureka, by March 15.

COPPER PRODUCTION OF
TWELVE MINING DISTRICTS

The copper mines of the United
States have produced more than fif-
teen and a quarter billion pounds of
copper, and of this total twelve min-
ing districts have produced in excess
of 100,000,000 pounds each, according
to the United States geological sur-
vey. These twelve districts, located in
eight states, have yielded 94.69 per
cent of the total output of the coun-
try since 1845, when the total pro-
duct of the United States was but
thirteen million pounds. The twelve
districts are Butte, Mont., which has
yielded 5,315,000,000 pounds, or 34.75
per cent of the total production; Lake
Superior, Mich., which has yielded
4,758,000,000 pounds; Bismarck, Ariz.,
1,625,000,000 pounds; Jerome, Ariz.,
832,700,000 pounds; Jerome, Ariz.,
570,000,000 pounds; Bingham, Utah,
465,000,000 pounds; Shasta county, Cal.,
335,000,000 pounds; Globe, Ariz.,
334,700,000 pounds; the foothill belt,
California, 193,000,000 pounds; and
the Santa Rita, N. M., (where mining
is believed to have begun as far
back as 1800), 193,000,000 pounds.
All other districts have produced 804,
300,000 pounds.

It is interesting to note from the
United States geological survey's re-
port on copper production for 1910 that
the first ten largest producers today,
although the order is slightly
changed, are the same as in 1909.

The survey's estimate on January
2, 1912, indicates a copper output for
1911 greater than that of 1910 and
nearly equal to the record production
of 1909. It is further stated that most
of the companies are now in a posi-
tion to maintain or even increase
their present output, so that, if the
consumption of the metal will permit,
the production of copper in the United
States for 1912 may be expected to
show a marked increase. It is note-
worthy that not even the leading
copper districts of the United States,
several of which have been active
producers for thirty years or more,
have been worked out or shown a de-
crease in its ability to produce cop-
per.

PROGRESSIVE
CLUB TO BE
FORMED

A movement is on foot to create
a Progressive Republican club in this
city and a meeting for this purpose
will be held Saturday evening at 8
o'clock, at O'Connell's law office,
over Nye's clothing store.

All Republicans who particularly
favor the nomination of Theodore Ro-
osevelt for president are cordially in-
vited to be present.

WIRELESS DIRECTORY.

Washington, March 8.—Every
known wireless telegraph station in
the world, ashore and afloat, is listed
in the 1912 wireless directory just
issued by the navy department's bureau
of steam engineering. The directory,
which is compiled on a more com-
prehensive scale than ever before, un-
der-takes to give the names and call let-
ters of all shore stations and of all
vessels of this and other countries
equipped with wireless apparatus.

ALABAMA FOR TAFT.

Birmingham, Ala., March 8.—The
state Republican convention here to-
day selected its delegates-at-large to
the Chicago convention and instructed
them to vote for Taft.

FRATERNAL SOCIETIES

MASONIC.
